leads in pipeline	verified by opening their site	emails sent	quoted	human replies	auto-replies	bounces	suppressed

1 · Every email we sent: to whom, what we said, what it costs

One row per shop. The address column is the point: every line is an address published on that shop's own site, read by us on the day we wrote. Nothing here was bought, scraped from a list, or guessed.

#	Shop · where	Who we wrote to + where we got the address	What we said first (the subject line)	What they get, and how we work	Price: USD / EUR / SYP	Where it stands now

Prices: USD x1.09 (the kit's standing quote rate) - SYP shown at 14,500 per USD, indicative only. 'billed' = the currency the client is invoiced in. UK clients are quoted in EUR and may ask to pay GBP - multiply the EUR by 0.86 in your head, or 0.86 at today's rate; it is not a column here because the quote they receive is the one we wrote. Syrian pounds are shown so the size of a job is legible at home, not for quoting anyone: refresh the SYP figure before an invoice, and remember payment in SYP never happens - money arrives by transfer or USDT, with the client's written agreement. Max 15% discount, 40% deposit, care 45 EUR/month if they want it.

1	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]

2 · Can I finish this job without you?

Honest answer for every lead: everything up to a signature is mine; money, legal identity and the domain are not. If a client says yes tonight, the blockers below are the list of things only you can unblock, and they are the same three for all 15 shops — which is why the process is worth pre-building once.

3 · Shops we checked on purpose and did not email

These are the ones a careless pipeline would have blasted. Either no address is published on their own site (so there is nothing to write to that we can defend), or their own stack is already better than what we sell — saying so is the deal.

4 · The rules this list runs on

Written down so the pipeline survives being handed to anyone else, and so no future batch quietly lowers the bar.

Gate	A lead is pitchable only after someone opens the shop's own site and reads the address off it. Search snippets, directories, Instagram bios and purchased lists are not addresses — they are how you end up emailing the wrong business with a similar name (it nearly happened with Lucky Yu: the award list meant Walthamstow, the domain belonged to a canteen in Edinburgh).
No invented praise	Every email rests on one checkable observation from their own page — duplicated hero text, two different opening weeks, a Menu button that leaves the domain, a 404 where the contact page should be. If we get an observation wrong, we correct it in the same thread within the hour, like we did for Born & Bread.
Identity	Abdulrhman Thali, freelance web developer, Karm El-Zeitoun, Homs, Syria — stated in every email, never hidden. No claim of a UK/EU/US presence anywhere in the pipeline.
Tax	Wave 1 only (US + GB clients, 55 of 70 leads): a Syria-based freelancer selling remotely owes no VAT there and no registration in the client's country — UK clients reverse-charge, US clients owe no sales tax on a foreign independent contractor (W-8BEN, no 1099). Wave 2 (FR/ES, 15 leads) is parked until their VAT number and a registration check are in writing — see sales/TAX-SCOPE.md.
Money	USDT is allowed only if the client agrees, raised at quote/invoice level, never inside a cold email, and never presented as a way around anything. Bank transfer stays on the table.
Exit	One line in every email: reply 'remove me' → permanent suppression, no follow-up call, removed from the list.
Cadence	Day 0 first touch · day 5 short follow-up in the same thread · day 14 last one · then parked and not reopened for 6 months. ARAN-style: if they publish admin days (Tue–Fri), the follow-up lands on a Tuesday morning, because a Tuesday mail is read and a Saturday mail dies.
Price	Licence 149 EUR · Baguette 750 · Croissant 1,450 · Pâtisserie 2,900 · +language 220 · SEO 380 · photography 320 · extra location 180 · wholesale portal 640 · care 45/mo · hosting 90/yr · rush +25% · max discount 15% · 40% deposit. GBP ×0.86, USD ×1.09. Never a quote two clients could compare.

5 · What happens the moment a real person replies

No lead is waiting on me for anything except a decision from you. The sequence below is already scripted.

1. Same day, human replies → I answer in-thread with their board attached (single self-contained HTML file, opens in any browser, no demo account, no link that expires).
2. They like it → I send the scope as a one-page list: what's in the package, what isn't, the price in their currency, the timeline, the care option.
3. They say yes → I draft the agreement + invoice with their name on it; you sign, you choose the payment rail (bank or USDT, their call, in writing).
4. Domain: registered in their name, not ours — I prepare the DNS records, you hand over the purchase link, ownership never touches us.
5. Build: 5–10 working days by package. I do data, languages, RTL, SEO schema, hosting files, and the README a stranger can run.
6. Launch + day-30 check, then care mode if they took it. Everything logged in this register; Drive gets the new sheet; repo gets the commit.
